To whom it may concern

I, Kelly Worden have had the privilege of being one of the key Combative Tactics instructors for the 1st Special Forces Group at Ft. Lewis WA. since 1999. As such I designed the curriculum for this specialized unit and instructed them full time from 2000 to 2006, and consistently contracted for short term programs to this date. I have instructed countless Defense and Control Seminars in the past 20 years for Law Enforcement officer personnel throughout North America. Attendees range from Sheriff Officers, Municipal Police Services, RCMP regular members and tactical team members, U.S. State and Federal Officers as well as specialized military units. Specifically I help military and Law Enforcement (LE) personal to expand their knowledge and tactical base regarding empty hand, impact, edged, and improvised weapon use in defense situations.

This letter is to acknowledge that Randy King has been certified directly by me, in the *Natural Spirit International* system of Defense and Control Tactics. Further to this Mr. King is acknowledged as having an Instructor Level of skill and comprehension in this system. Mr. King has been teaching Defense and Control tactics for multiple years.

I consider Mr. Randy King to have highly developed skill levels both in his comprehension of Defensive Tactical movement and relaying these concepts in a formal instructional setting. I further consider him to be an asset to my instructional team and the many individuals from civilian, LE and Military backgrounds he has instructed and shared this knowledge.

Respectfully, Kelly S. Worden
